

Being Committed to Excellence in Research and Services

Research, Development, and Public Service (RDPS) is part of STIMIK AMIKOM, which controls and provides a place for the activities of research, development, and public service. RDPS, as well as IT Division, Human Resource Department, and students, keeps on doing various activities for the sake of lecturers, staff members, and students.

STIMIK AMIKOM has been committed to the development of IT and science, and to the contribution to the development of Indonesian society members. Various public service activities have been performed to provide society members with the knowledge and skill of IT. Various works created by lecturers, staff members, and students, have been utilized for the benefit of society members. In this respect, STIMIK AMIKOM has various kinds of achievements that it has obtained from both national and international competitions.
